I am going to visit the *Build, Drive, Go!* exhibit at The Strong museum.

I will go with my adult up the stairs, or we will take an elevator to the second floor.

When I enter the exhibit, there will be other children playing. There are lots of places to play in the *Build, Drive, Go!* exhibit.

I can sit in the dump truck and pretend to operate it. I can also use pretend construction equipment to move rocks in the back of the truck.
I can use the big blue blocks to build towers or buildings in the Big Building Area.

I can build my own race track and use the cars to see which track makes the cars go faster at the Test Track area.

At the Duplo wall, I can write my name or make a design out of Duplo blocks.

I will stay inside *Build, Drive, Go!* with my adult until we are ready to leave together.

I'm excited to visit the *Build, Drive, Go!* exhibit.
