I am going to visit the *Game Time!* exhibit at The Strong museum.

Things will be different from my last visit. This is to keep me and my adult healthy. Museum hosts will be wearing blue shirts and masks. I will wear a mask. The museum may smell different than I remember. I will smell the cleaning supplies that the workers are using to clean the museum. I might see workers cleaning while I am visiting the museum. I can help, too, by cleaning my hands and not touching my face.

To visit the exhibit, I will go with my adult up the stairs, or we will take an elevator to the museum’s second floor. We may walk past video games. The games make noise and have bright lights. When I get to *Game Time!,* there will be many large games to play and a colorful path on the floor to walk down.
Playing will be different. I will play at least six feet away from other children. There will be signs and spacers on the floor to help me. Some parts of each exhibit may be closed for a little while. I might feel disappointed or frustrated, but I can still have fun. There are many things I can play with on my own or with my family.

I can play a game of Battleship with my adult. The game pieces are big and easy to use. Then if I want I can play Four-In-A-Row. I can choose to play as the red or blue player. I can try to get four of my color in a row on the board. When I am done, maybe I will build a block tower. I can make the tower as high as I want. If the blocks fall it is okay. I can try again and build a new one. I can even stand next to chess pieces that are as tall as me! If I want, I can take pictures near it. I can also look into display cases filled with many different types of games, both old and new.

I will stay inside the Game Time! exhibit with my adult until we are ready to leave together. The Game Time! exhibit is exciting.

My adult can learn all about changes at the museum at museumofplay.org so we can learn more together.
